Transmission Line
Permit and Licence 30714-D01-2026

	October 9, 2026
AltaLink Management Ltd. Transmission Line 100L Alteration Time Extension	Proceeding 30714 Application 30714-A001

AltaLink Management Ltd., pursuant to Permit and Licence 28606-D04-2024,[1] has approval to alter and operate the 138-kilovolt (kV) Transmission Line 100L from Tilley 498S Substation to Suffield 895S Substation, in the Brooks–Suffield area. The completion date for the alteration to the transmission line was stipulated to be on or before March 5, 2026.

AltaLink, by Application 30714-A001, registered on March 27, 2026, applied to the Alberta Utilities Commission for approval of a time extension to June 3, 2027, to complete the alteration to the transmission line.

AltaLink has provided information respecting the need, nature and the duration of the requested time extension. Based upon the information provided, AltaLink has demonstrated that the requested time extension is of a minor nature.

The Commission, pursuant to sections 14, 15, 19 and 21 of the *Hydro and Electric Energy Act*, approves the time extension for the completion of the transmission line alteration and grants to AltaLink a permit to alter and a licence to operate the transmission line, subject to the provisions of the *Hydro and Electric Energy Act* and the *Alberta Utilities Commission Act*, any regulations made under the acts, any orders made under the acts, the Commission rules made pursuant to the *Alberta Utilities Commission Act*, and the following terms and conditions:

1. The route of the transmission line shall be as shown on Appendix A and as described in the application and previous applications.

2. Specifications of the transmission line shall include the following:

   (a) The transmission line shall be designed, built for and operated at a nominal voltage of 138 kV.

   (b) The structures shall be constructed of materials as specified in the application and other previous approvals pertaining to the transmission line.

   (c) Other aspects of the transmission line shall be constructed as more particularly described in the application and other previous approvals pertaining to the transmission line.

[1] Transmission Line Permit and Licence 28606-D04-2024, Proceeding 28606, Application 28606-A003, November 13, 2024.

3. AltaLink shall file with the Commission within 30 days of completing the transmission line alteration, the energization certificate(s) for the transmission line issued by the Alberta Electric System Operator and/or by AltaLink, to confirm that the transmission line alteration has been completed and the transmission line is being operated in accordance with the provisions of this permit and licence.

4. Unless otherwise authorized by the Commission, the transmission line alteration shall be completed by June 3, 2027, or a later date of June 3, 2028, subject to AltaLink filing an approval by the Alberta Electric System Operator of a change proposal for the later in-service date.

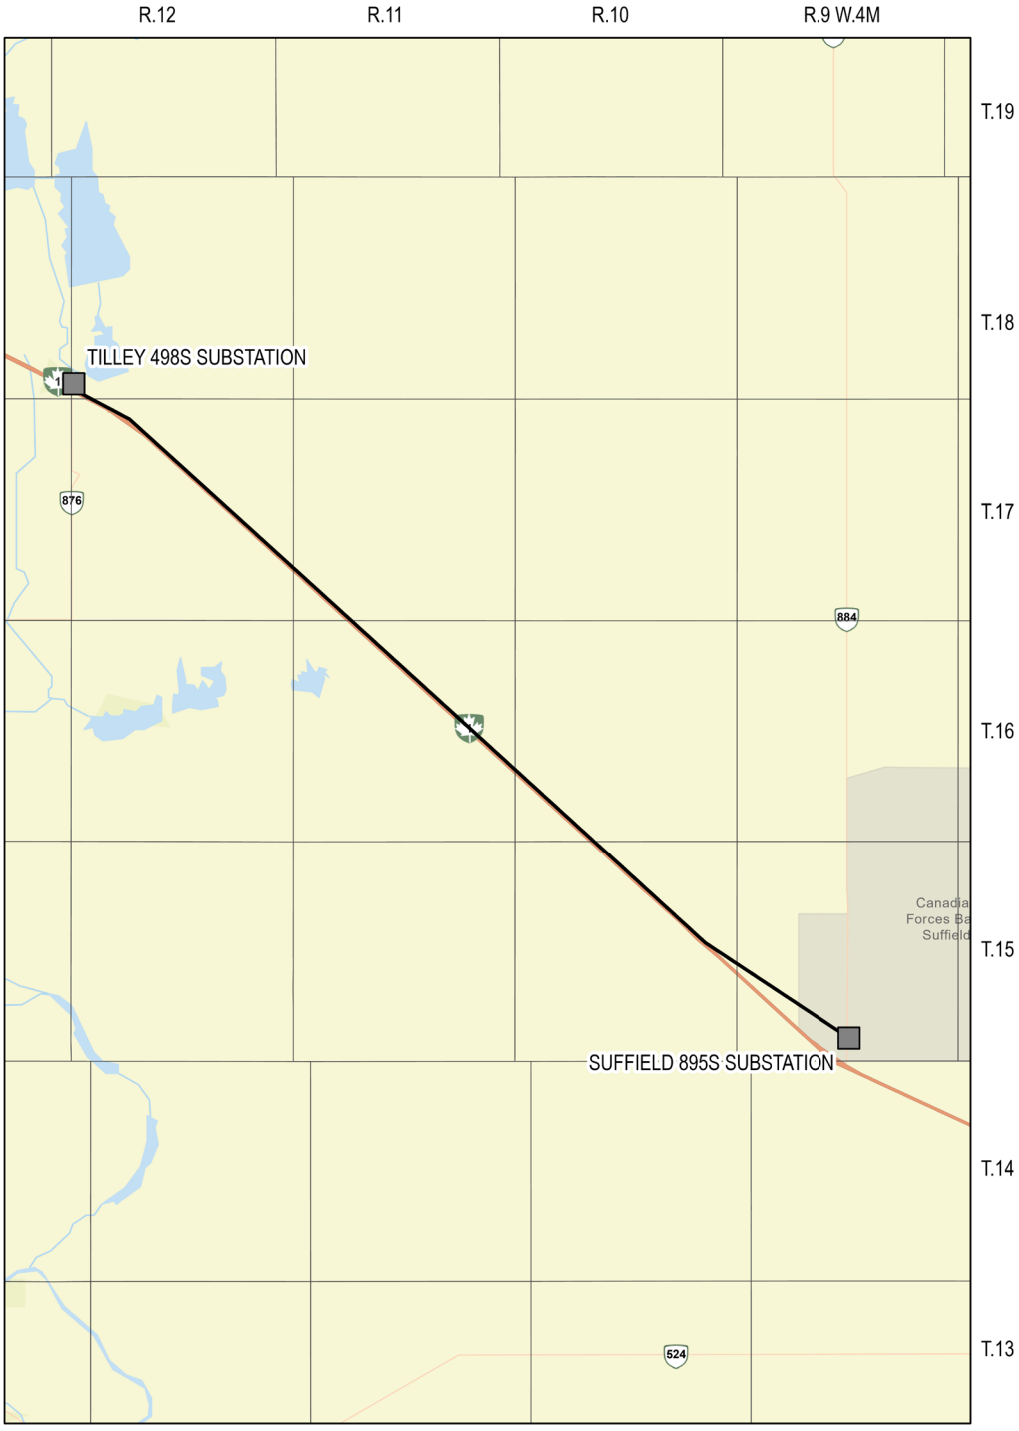

Permit and Licence 28606-D04-2024 is rescinded.

The Commission may cancel or suspend this permit and licence, in whole or in part, in accordance with Section 41 of the *Hydro and Electric Energy Act* or may review this permit and licence, in whole or in part, upon its own motion or upon an application by an interested party, in accordance with Section 10 of the *Alberta Utilities Commission Act*.

The Commission may, no later than 60 days from the date of this permit and licence and without notice, correct typographical, spelling and calculation errors and other similar types of errors and post the corrected permit and licence on its website.
